SpeedQuote offers Web2Print

SpeedQuote Ltd. is pleased to announce that we now offer Web2Print functionality! Rather than re-inventing the wheel we have partnered with world-class provider Vpress to provide SpeedQuote printers, corporate print buyers and print management clients the ability to offer customer specific branded Web2Print Templates as part of their SpeedQuote Instant Pricing eCommerce solution.

Web2Print

Beginning today users (Printers / Buyers / Print Management Companies) can enable any SpeedQuote ecommerce customer to fill in / order Variable Data documents, Print On Demand or Stock items through the "Coreprint" customer branded portal. Coreprint is currently used in thousands of organisations around the world. All of this activity is tightly integrated into SpeedQuote eCommerce to provide a single point of entry for any client. As a result of these combined offerings, a buyer can get instant pricing for any project, complete a branded Variable Data document, order, pay and track either within a single web portal.

What others say...

"It's fantastic to see how far Print eCommerce has developed in recent years. Using SpeedQuote, a Print Buyer can get an instant price for any print job, place and pay for an order online 24/7! Adding the ability to use Coreprint to complete variable data templates and print on demand products makes SpeedQuote eCommerce a complete Print Buyer solution. Together we have created a web based solution that can be accessed anywhere at anytime.", says Kelvin Bell – eCommerce Director – Vpress Ltd.

"Vpress completes the puzzle for SpeedQuote! With integrations with Paper Companies for live accurate pricing and Vpress for online variable data and on demand documents at agreed pricing, any buyer of print can get all they need from a single website powered by SpeedQuote! This shows how integration is the way forward for Print eCommerce! ", says Terence Livingstone – Managing Director of SpeedQuote Ltd.

About SpeedQuote

SpeedQuote is an eCommerce company that specialises in bringing Printers and Print Buyers together! At the heart of the SpeedQuote system is an online instant quote facility, which provides printers and print buyers with instant, accurate prices in seconds.
